MATOR-RESUT H. ROLLINE,

TERRITORY UNDER ADMINISTRATION

City of Belleville and Townships of Thurlow, Tyendinoga, Town of Deseronto

This Board has been established to facilitate the settlement or call with of the ration problems of people residing in the district defined above.

The object is to ensure that restrictions made necessary by war as applied with maximum effectiveness, minimum inconvenience and equal fairness to all consumers and suppliers. The basic reason for all rationing is to assure o dair division of available supplies to everyone.

Serving voluntarily on the Board are local citizens representative of the people of this district, and able to bring an intimate knowledge of local conditions to this new wartime task.

At the local Ration Board's offices you can get full information on all are use room genous sources outroes you can get run mercenson on the compects of consumer rationing, and prempt edjustment of special problems, such as—what to do in the event of loss or damage of your ration book . . . whether extra rations are allowed for special purposes . . . and other matters ampounced from these to time,

> Take full advantage of this service established for your convenience '

TRUSTS and GUARANTEE

War doesn't halt for yuletide and if the fires burn brightly at home this year it's thanks to such men as this sturdy sea-dog standing watch on Atlantic patrol.

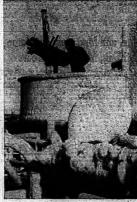

These are the kind of Christmas crackers which will of their ship. In this phote, a correctie is shown as the carploided by the boys of the Canadian Navy if they she blasts the Atlantic with powerful depth, charges, happen to get scent of a German sub in the vicinity dropped in a pattern to trap a proving enemy Otboat.

Our men in the Air Force and army will have to spe another Christmas away from home this year but me will at least be more comfortable than this sail

It's colder than using the wireless room for transmitting messages, but it's a lot safer. Once at sea, ships of the convoy silence wireless and communicate by means of blinkers such as the one shown here being operated by heavily-clad tars.

This isn't a freak picture. It's just the every-day accumulation of ice which builds up on a ship soon after she sets out on the North Atlantic in winter.

Only the game hunter knows the terror of an enraged bull moose — Little Adolf Shildegruber is finding out for himself on the crest of the corvette Moosa Jaw. He urobably wishes he had stuck to paper harding. — Most ships have said related

There'll still be time for Christmas dinner even if there is a war on! Cooks are shown fixing up good old plum puddings "just\_like mother used to make."

Hére's one of the "nerve centres" from which our naval of the perflous journey. United States and Canadian activity in the Atlantic is directed. On this huge map awal officers work also by side on important job has told the story of the course. You beginning to the cause what happens on this image noments both countries.

Speckled with frozen spray, a sallor wonders how the folk back home are spending Christmas season as his ship guards a convoy far out on the wind-swept ocean.

CAN-MAKING MATERIALS ARE NEEDED FOR WAR

WAR NEEDS come before all! During wartime no more cans will be made for packing coffee, because the materials are needed for war purposes.

Maxwell House is now packed in an attractive bag. But although in a different container, the famous Maxwell House blend is unchanged.

Marwell House is still the same bland of rare, extra-flavor coffice — hill reasted by the special process that reasts each coffice bean enough all through. Whether you buy it in the new workness bag, or whether your proces still has some flavored flause in came or jars, you can be sure that it will give you the utmost for your coffice coupons.

# Picton and District Factory Pack in Prince Edward Last Year is 37 Million Cans

# Attack of Flu Left Him With Weak, Upset Stomach

# A Bushel of Trouble for Hitler

ANADIAN and American grain fields, Herr Hitler, have caused you a lot of trouble . . . and they are going to cause you a lot more. Because, from these grain fields of ours comes an all-important weapon of warhigh-proof alcohol.

As you well know, Herr Hitler, high-proof alcohol is an essential ingredient in the manufacture of smokeless powder for our shells, bombs, mines, torpedoes. You know too, that high-test alcohol is used to make synthetic rubber for our jeep, truck and aeroplane tires . . . pharmaceuticals to keep our boys well . . . shatterproof glass for our aeroplane windshields . . . and a host of other products our Army, Navy and Air Force are using to cause your destruction.

Over here, Herr Hitler, we have plenty of grain and

ample facilities to make almost unlimited quantities of alcohol for war-so don't think there is any shortage when some night our Lancasters with their 8,000-pound "block-busters" fail to appear over Essen, Cologne or Berlin-the only reason will be "impossible flying conditions." And, when your "Tirpitz" gets a mighty broadside from the 14" guns of our battleships, you can credit the alcohol which makes possible the manufacture of our death-dealing shells.

Yes, Herr Hitler, you are really in trouble:

All our distilleries in Canada and the United States are pouring out an endless stream of high-proof alcohol for war. And you can be sure; Herr Hitler, that this stream will never stop until your last gun has been silenced.

dvance on Roads to Axis Capitals

President Rosevelt's message to the United States Congress on the state of the nation gave the promise of a "wary substantial advance, along the reads this lead to Berlin, Rome and Tokyo" first present year for to these the war must be

carried.

Of the war with the Japanese he said;

"Last year we stopped them. This year we intend to advance."

Naturally he would not prophesy when the war would end but the "very substantial advance". he pleafed is a mild statement of the intention of the United Netions.

The Axis remnants will be driven from he south shore of the Mediterranean.

That he did prophesy.

The Japanese weaken daily and American strength rises daily in the Pacific

can straight riese daily in the Pacific strurgic.

Having said these good things, he may been, no fars. Gas spikel, asy me Having said these good things, he may be here the subject of th

triple enemy.

We are going to strike—and strike
hard—in Europe, he said and he added
'I cannot tall you whether we are going
to hit them in Norway or through the Low
Countries, or in France, or through
Sardinia or Sieldy, or through the Balican
or through Foland—or at several points
simultaneously.

Countries, or he Prance, or through scarlinks or either, or through Ballans or through Poland-or at pewenl points or through Poland-or at pewenl points of the pewent of t

Democracy's Power Nine billion dollars for all government urposes and one hundred billions for

purposes and one hundred billions for war.

This record expenditure has been recommended by President Roosevelt in the recommended by President Roosevelt in the second second recommended by President Roosevelt in the second recommended by the second recommended by the second record record

war pace thinks became a very many and the world in the Freddent's words, "the program is feasible." Featistic words "the program is feasible." Featistic and high as the figures for expenditure seam, it must be remeinhered that the death of the presence of the company of the presence of the company of the

Blast Jap Planes, Troopahips One of the haviest blows of the warhas been levelled at Japan, with no fewer
has 13s Japansee planes destryed or
crippled trying to defend a troop control,
soldiers must and other damage inflicted
by Allied bombers and fighters. ThreeJap troop transports were bedly smashed.
General MacArthur has stated that.
This battle has been one of the most
marked as showing the power of Allied
bombers. Planes followed right into the
harbor of Lae and continued bombing.

Land eas forces have been excitting a very
heavy toll on the anemy.

A man should inure himself to voluntary labor, and not give up to indulgence and pleasure as they beget no good constitution of body nor knowledge of mind. — Socrates.

It is wise to get knowledge and learning from every source—from a sot, a pot, a fool, a winter-mitten or an old slipper.— Rabelais.

Every thought which genius and plety throw into the world alters the world. Emerson.

"FOR I DIPT INTO THE FUTURE"
(By Special Request)

For I dipt into the future,
far as human are could see Toru I
Saw the Vision of the world;
and all the wonder that would he! I

Saw the heavens file with commerce, argosies of majo salls, 1934A 0 Pilots of the purple twilight, dropping down with costly bales;

Heard the heavens fill with shouting, and there rain'd a ghastly dew From the nations' airy navies grappling in the cantral blue;

Far along the world-wide whisper of the south-wind rushing warm, With the standards of the peoples plunging thro' the thunder-storm

Till the war-drum throbb'd no longer and the battle-flags were furl'd in the parliament of man, the Federation of the world. —From Tennyson's "Lockeley Hall."

# TRANSPORT

The drill sergeant had been putting the platon through its paces with even more gusto than usual.

"Now, my lad," he said to a recruit, "You've been on this guars for three weeks, and what have you learned?" "The reason, why soldiers are not afraid to die, sergeant."

On Long Distance Calls Avaid all unnecessary calls.

Avaid all unnecessary calls.

Whenever possible, use off-peak hours; bufors 9 A.W.; 12 nous.

3 p.M.; 5.7 p.M.; after 2.30 p.M.

3. Plan your conversation before you lift the receiver—you'll save time and expense. These shings may look selfling, but on 6,500,000 daily telephone calls, they are very imperious,

HERE'S HOW YOU CAN HELP On Local Calls

L. Be belof . . . clear the line for the next call. Best call.

2. County your directory before you call "faformation" for a menhan.

3. Urps your family—especially, its younger manhors—its ground immension, or call.

Be a "good neighbour" to the fam-ity which sharps your party line.

# CHINA CAN BREATHE AGAIN!

# BY PHILIP JORDAN

London (By cable)-In this war I've visited 17 countries and the cor annual to you to have a very visited at contribute and the com-modity I found common to them all is the General Motres mechanized transport. I paid my first visit to No-Man's Land beyond the famous Magnot Line in a Chervolet. I drove to the Russian Front in one, and watched it taking back the wounded. In another I escaped from Rangoon just one step sheed of the Japa.

I was the first war correspondent to set foot in the western desert of Egypt, and again it was a Chevrolet that laughed at the worst roads in the world outside of Russia, where they rely for victory, let me tell you; as much on the factories of their ellies as on their own production. They ed trucks that will stand up under road conditions you've never imagined;

In the mountains of Persia the new Polish legions from Russia use them to make the long trek to the railhead that takes them toward the Middle East.

In the great port of Basra, on the Persian Gulf, through which torgently needed Allied supplies flow to Russia, I've seen camou-flaged trucks as thick as cornstalles in the fields at harvest time: You see them from one end of the Iraq desert to the other. You find them in the heart of the Belgian Congo. At this moment and them in the heart of the Belgian Congo. At this moment there is a stream of them taking supplies along the new road from India to China. More than 100,000 labourers have built that secret road in a few months, so that absolutely vital supplies can be sent to our Chinese allies as regularly as before the Japs cut the

I saw this miracle road being hacked through jungle; and alsabed through malerial forests, like a conjurce esting coloured ribbons. Each morning a flock of Chevrolets brought up labour and materials, and later they carried guns, shells, sirplane party, gas, grandes and modical supplies. Because of those trucks China can breathe again. And what is saving China will halp to save the whole world of decent ment:

This direct, personal cable from one of the most widelytravelled correspondents covering the many war fronts, pays a great tribute to the workers in Canada who are so energetically supporting their fighting brothers overseas. In General Motors plants the morale of thousands of workers has been kept at battle-intensity by the knowledge that mechanized equipment not only wins engagements but saves lives. They are as proud as we are when Canadian-made vehicles get mention in dispatches as being an essential of victory.

Men in factories are the front lines. That is the war. Transport means as much as guns, for this is a war of Machines, Withending streams, the war would be lost.

CANADIAN-BUILT WAR PRODUCTS ARE SERVING IN EVERY THEATRE OF WAR

# Bayof Quinte Agricultural Mutual Fire Insurance Co.

TO POLICY HOLDERS:

The critical time of the war is upon us. Money and building materials are urgently needed by our Empire and Allies. YOU can Help by Eliminating Fire Hearens.

See that your Pipes are cleaned regularly during the Winter months; that protections through the floors and ceilings are carefully inspected, and all cahes deposited away from the buildings.

• EVERY FIRE PREVENTED HELPS TO DEFEAT THE ENEMY AS ALL MONEY SAYED BY THE COMPANY IS GIVEN TO THE BRITISH WAR VICTIMS, THE RED CROSS AND BUYING VICTORY

1942 has been a good year and the officers of the Company congratulate you, and may we co-operate to make 1943 even better:

MAY YOU HAVE A PROSPEROUS AND HAPPY NEW YEAR

E. D. GREER, Pres.

/ W. A. DAVIS, Sec.-Treas

VITAVAX

FIRST TRANSPORT PLANE TO BE MADE OF WOOD

Because of the War, Madam

VOU probably won't be surprised that no more coffee cans are being made. The materials previously used for making these must be conerved for use in war production.

So-Maxwell House Coffee is now being packed in an attractive bag. Yet, though the container is different, the famous Maxwell House blend is unchanged.

STILL THE SAME SUPERB BLEND

Maxwell House is still the same blend of rare, extra-fine coffices still resited by the special process that develops all its goodness. So, whether you buy it in the new wartime bag, or whether your grocer still has some Maxwell House in cans or jars, you can be sure that it will give you the utmost for your coffee

## MAXWELL HOUSE Coffee

BATERIAL

MAXWELL HOUSE IS HOW PACKER

ALL PURPOSE GRIND

Also for wartime reasons, Maxwell House now comes in one All Purpose Grind-suitable, for both Persolator and Drip methods. If using a drip-type coffee maker, you may prefer to put the liquid through the ground coffee an extra time.

er say die" Fighting French gunners man their Bofors gun in deser arms of these 40-mm "ack ack" guns, in use in many theatres of war huge Ontario gun plant which has airready delivered more than 1,000

Canada's greatest contribution to the success of the African campaign was its steady output of munitions of all kinds. The men and women who toil in the bountry's many arms plants may well feel proud of the part they have played.

In the African campaign many lives were saved been of travelling blood banks. Blood donations of

Canada has not only supplied bombs to the African front — but also the men to drop them. Hundreds of Canadians took part in the air offensive, serving with the R.A.F. or the R.C.A.F. - The bombs were produced in Canada in the Empire's largest plant of its kind. This huge factory turns out more than 100,000 bombs a year. Its products have hammered our enemies on many fronts,

## World Democracy's Total Effort

rant man is inter, or course, when he is realize the importance of the Tail to realize the importance of the matter of the terminal of the importance in the importance of the

comp;
This total war effort mean shortening
the duration of the war, for massive blows
mean the sooner the enemy is exhausted
and thereby the fullest effort means the
The Rosewith bidget, along with the
measures taken by the other Allied
Nations, shows democracy efficiting with
the strength of victory for right and
justice in the world.

#### New Name

An institution which has become famous throughout the world of the Allied Nations and whose name, will linger long in the public minds in the Reveryone can remimber the seriety days of the war when this plan was initiated and when it seemed so far in the friture. But time files, even in the days of war, and the present joing since, Today the schemic stands as the greatest organization of its hind.

the present long since. Today the schemic as the greatest organization of its kind. In the greatest organization of its kind. In the second in

#### OUTSTANDING FRATURES

These same bold blasts affect the nose, Which can't be covered up by clothes And therefore runs and reddens bright! And gets to looking quite unsightly.

"If Bracken's crackin', I'm not slackin' I'm a real progressive guy. King, Mackenzie is in a frenzy Either daft or just plain 'high'".

Late ringside reports do not reveal the effect of this crack, but the battle is expected to be resumed in the Hotel Quints Lunch Arena next Monday.

That's all boys, and come out fighting.

That's all boys, and come out fighting.

NOTE:—The above amnouncement does not constitute an endorsement of either product by this column. Any reference to two prominent members of the Rotary Glub is intentional.

#### CONSERVE FUEL

With a serious coal shortage threatening the nation the following hints on how
to conserve field are not only timely but
useful as well. They come from the Gal
Administrator of the Wartinal Prices and
Trade Board:
Don't block the registers,
Keep the furnace in good condition.
Don't disturb' the feel bed unless

ccessary.
Suit the size of the fuel to the fire box.
Avoid excessive temperatures.
Close off unused rooms.
Don't try to keep the garage as warm

as the home.

If the bedroom window is open, keep the door of the room closed.

Close the fireplace damper.

Close your outside, doors promptly and

Gross year outcomes, firmly.

Watch the humidity.

Take care of the hot water tank.

Don't allow leakages of hot water.

Put a blanket on your house with insul-

tion.

Take care of the windows and doors.

Control your heat distribution.

Keep the fire box full if you use

Shake only when necessary to bring up Leave the grid in the fire door open.

Don't leave the ashpit damper open,

Don't poke or stir the fire.

# WAR-TIME DUTIES OF CITIZENSHIP

Be loyal, obey the laws, pay ordinary taxes, provide for self and family, save something for future independence—these are the relatively, simple duties of citizenship in peace-time. But in war-time things are dif-

ferent. Even though he may not have the privilege of joining the armed forces, the citizen has

arduous duties, which call on his greatest resources of character, industry and financial means. Added to the normal requirements are the obliga-tions of extraordinary taxes, Victory Bonds and war charities. So great are the financial duties imposed by war that the citizen must resort to unusual, drastic,

The Bank of Montreal offers you the service of a Special Ser-ings Account, in which you can deposit every pay-day, or other income date, the right proportionate amount to cover your war obligations when due.

CLIMAR OF GEN. MONTGO MERY'S DARING SWEEP

New York, Jan. 19 — (AP) — Ra-tion note: The BoBard of Education entitled "Slow to best your has amounted it will start adult during the fine shorters"

# THE BEER SHORTAGE

N DECEMBER 16th, 1942, On Prime Minister of Canada seed that the Government had decided to seduce the sale of beer by 10% for the twelve months dating from omber 1st, 1942.

Today these is a shortage of beer for mers amounting to considerably more than 10%,

We believe the public and the trade are entitled to a fall explanation of the facts.

### WHY 10% IS MORE THAN \_ 10%

Because the Government annot of the cut came in the second month after the order became effective, sales for November and December had already been provided for in accordance with demand. (The per capita consumption of beer has not appreciably increased, but the high level of employment has naturally increased the number of con-

Now, in order that the cut for the year ending Oct. 31, 1943 should total 10%, a reduction of much more than that is necessary for the first few months of

1943. This "levelling off" process is in paogress because it is the only way in which the Government segulations can be carried out.

### A DISTRIBUTION, FAIR TO ALL

We are doing everything possible to assure a fair distribution of the quantities permitted. In the meantime, we would ask you to remember that the new regulations came to everyone without adequate warning, in the second month after the effective date, so that no planning in advance was possible.

There is no actual shortage of beer supplies in Canada, since beer is brewed from Canadian-grown ingredients, not required for the war effort; but announcement of the curtailment, coming so late, thas resulted in a more acute shortage than the Government regulations were designed to bring about.

We regret that this situation has arisen. We are doing everything possible to reduce any inconvenience that is being experienced by the general public and our friends in the trade.

# DAWN OF A BRIGHTER DAY

Standing as we are at the threshold of the year 1943, we are now oble to carial occasional silmpase of the downing of a live so carial occasional silmpase of the downing of a live so the control of the terrible years been enveloped in the gloon and tropped of au., more billet and cruel and widespread than any that has personal to the silmpass of th

The New Day will take account of the min down under, the mon who through no foult of his own has been loaling the bottle open owners characteristics. He too will not be lost sight of in the peace.

The spectres of unemployment, of sickness, of inodequate recompress for lobor, of under-nounthed childran, of lock of the essential comforts of life—these will have vanished when the New Day has resched its full montide.

reached its full noontide.

Great blessings are won only by socrificial endeavour. Peace folious wor only when lives are faid down. Death is often the price that is paid for filterly.

Its which appears are worked to be present the price that is paid for filterly.

The present the price that the price that is paid for the price that papears are seen reminders of grimmer days abend. Concidions have not yet fell the full impact of this greatest of var.

But the young men of Canado have not failed. They have not waited for companion. They have gone forever duraterly, in ever augmented multitibles, to serve a cause and to face deadly perils.

In the works, griffle Canadian patel, Wilson McChandid,—

In the works, griffle Canadian patel, Wilson McChandid,—

"They left us at the mounday, ere one shadow Had fallen on the ardor of their souls."

In the crucial Betti of British. or Dispop, and elsewhere in a world-wide field, Concidion youth hos met the enemy and, no matter what the odds, hos proved equal to the code, hos proved equal to the Code has been as the code of the code of the code of the code of the We know full well that many of these young heroes will not come book to us.

book to us.

Some of the homes at Belleville have already received those brief official intimations beginning with the aminous words: "We regret to report ..."

Those who have already laid their lives upon the altar of ancien's service will not return to us. But the glary of their volonous deed will ahine forever as the stars in herems, an orbly fought to preserve, in the institutions their scortfice will perpetuate, in the better world they have helped to create.

For them there is no death. They have achieved immortality. Said Gordon Johnstone in the words of an unforgettable song:

"I tell you they have not died,
Their hands clasp yours and mine;
They now are glorified.
They have become driven.
They have become driven.
They hive they know, they see,
They should with every breath:
All is clernal life.
There is no death."

The City Council of Belleville, speaking for the great body of cit-zenskip, extends sympathy to those porents and other members of consequences. The council of the council of the council of consequences are considered to the council of the council of At the same time, the Council feels that the friends of our fatter. At the same time, the Council feels that the friends of our fatter of the council of council of the counci

to be ushered in.

Their devotion, even unto death, to a great cause will not have been.

Their devotion, even unto death, to a great cause will not have been.

Their devotion in the second consciousness of that New World where goodwill ond harmon brotherhood will have replaced the horst and supportly of a discredited end defeated idealism.

"Their name liveth forevermore."

Signed on behalf of the City Council and Citizens of Belleville.

J. WILFRED HOLMES, City Clerk HARRY ROLLINS, Mayor.

"It's right on the beam" rd. You see, I speak for ia, known, Ioo, as Coks. I speak for both. They mean the same thing. The gang

To the enemy Leningrad has meant the loss of a quarter of a million men, and loss I morale.

The raising of the blockade keeps step with the Russian advance all along the

line:
January 1943 will long be a black
letter period in Nazi records, It is a herald
of the releasing of the fetters, now binding Nazi-held Europe, in that day for
which all the world that loves freedom
looks and which it aims to bring to pass.

### Britain's War Production

Britan's War Production
This area 1848 will be the highest year
in British war industry, seeing the peak
of labor production. More men and
women will be used in industry by witharwain from less essential sarvices.
This year sees Britian in her great
stride far in advance of the early efforts
when British was not well estudged,
stanfactly bearing her burden without
nurmar until now she can see shead the
maximum of war production. Every class
over there's hes done life duty in a way
British and the stanfacture of ships, sirrerif, and isobmarine
devices, tanks, specialized types of army
conjument.

Details of the stanfacture of ships, sirrerif, and isobmarine
devices, tanks, specialized types of army
component.

devices, tanns, specialized types of army quipment.
This shows a Britain far advanced in the war, a Britain in the stage when she can strike mighty blows in concert with her Allies, who have now seen the swing-of the offensive from the Aris to the side of the United Nations.

devices, tanks, specialized types of army quipment.

This shows a British far advanced in the war, a British in the stage when the state of the beatwood of the property of the offensive from the Aris to the side of the United Nations.

Rear view of a liki-trooper ready for the trail. On his back are snowshoes which he sometimes uses in place of akis. 'He carries equipment for miles, uphill and down,

Ski-troopers pause while their officers consult the maps. Most of these photos were made during a recent trek when a unit covered 65 miles. For six days and

nights the akiers ate and alept outdoors while the mercury hovered around the 35-below-zero mark. The exercise was the final stage of their training course.

It's not very luxurious, but it sure tastes good after a long spell on the trail! A ski-trooper is shown as he cooks his meal in a fireplace carved from the snow,

Camouflage with a capital "O". Skd-troopers shown in other photos wear only their training outfile. These photos show how perfectly the trooper blends with now when he is completely equipped. Outline in upper photo disappears when akier flops in snow.

In a picture, it looks almost like a Christmas card, but it's a lot different after you've been out in this kind of weather for two or three days. Most of the ski-troopers trained in special courses are

sent back to their original units as instructors. The course lasts about two weeks, starting off in a class room and ending up on the snows. Many troopers are already expert skiers before they join up.

## **BUTTER CONSUMPTION TEMPORARILY** REDUCED

It has become necessary to reduce the current rate of consum tion of butter, and accordingly changes have been made in the dates on which (brown) spare "C" coupons of the current price book may be suffered by the current price by the curr ration book may be used.

Spare "C" coupons 10 and 11 may not be used for the purchase of butter. Coupons 1 to 4 inclusive, have already expired.

Expiry dates for spare "C" coupons 5 to 8, inclusive, have been extended to aid consumers in stretching out the butter allowance over the period from now until February 28th.

Each coupon will continue to be good for the purchase of one-half pound of butter and will be good only on the dates specified below:

#### HERE IS THE NEW SCHEDULE 5 and 6 January 18th February 28ti 7 and 8 February 1st February 28tl March March

The result of this is to reduce each individual's allowance by 2 2/3 ounces per week during the temporary period.

CONSUMERS WILL FIND IT ADVISABLE TO RATION THEMSELVES SO THAT THEY MAY BE ABLE TO STRETCH THE NEW BUTTER ALLOWANCE OVER THE NEXT SIX WEEKS

THE WARTIME PRICES AND TRADE BOARD

Day after day the newspapers are giving as not only the news but also . . . through words, maps and plotures . . . a BETTER understanding of each day's events.

Take The Man In Your Life

SENSATIONAL DDED ATTRACTION to Talked of Short For Rade. FIGHTING CANADA"

Disney Colorius Carleon: "FLUTO AT THE EGO" SAT. MATINEE: T-H-R-E-E

Tonight - Sat. - Mon

# In 1942

- Eighty - five thousand Canadians purchased life insurance from this Company to the extent of One Hundred and Thirty Million Dollars (\$130,838,000 net).

- Life insurance in force increased to Eight Hundred and Sixty-three Million Dollars (\$863,885,000 net).

- New funds and those from maturing investments were used almost entirely to purchase Victory Bonds. Thus the Company's assets, while employed as in years past to safeguard the policyholders' interests, are contributing also to the building of our national security.

> A Copy of the Sixty-eighth Annual Report will be mailed upon request.

# When <u>you</u> buy carelessly the Axis is pleased

We know you want to help win the seer and one sure way of doing just this is to buy only when it is necessary and then to buy only those articles which less longer. The products you buy which lest longer won't need to be replaced so soon. Less material will be used; less machine time wasted; less labour will be diverted from our war effort. More of all three will be available to fight the Axia.

Also note that buying for longer service not only helps to conserve but it also provides you with better value.

Make sure before you buy a new one that your present battery is worn out. Ask the Exide Dealer in your district to advise you. He has been carefully chosen for his ability to render honest battery service. Look for his sign. He will help you get the longest possible service from your

roys roll over 1600 miles of road with in ways of north helped build highway; Corp. W. J. Ashbay, of U.S asses. Upper photo shows supply column as to Below L. to R.—Louis Jacquot, wise and U.S. Army driver sport different models of Yukon fashions

At one of fine series of Canadian-bullt airfields along Alaska highway to over the twin engines of a transport plane as hot air is pumped up before the lake-off. Fying conditions are complicated by sub-zero to the conditions are complicated by sub-zero to the conditions are complicated.

Two U.S. Army sergeants concentrate on their nightly game of cribbage after a day on the vital road through the wildsmess. Two cans on the table hold beer, the first these solders have seen after long weeks in the lonely north.

The severe cold and heavy snow of Northern Canada forced modern engineers to use studies to transport many goods from station to station. Dogs ready to much are shown above. Below plane lands on Canadian-built airport strip.

Giant bulldozers like the one above were used on the Alaska Algebray to knock down trees to form a bot make Alaska Algebray to knock down trees to form a bot maker of routine to the tough, trained soldiers who patrol our Article front line defence. He's man await the signatu to fire their fartiliery pleces.

Poet and Prophet

One hundred and eighty-four years ago Robert Borne was born and in his lift to with means a temperamental predominance of courage over, timidity, of the deep springs of life. It is a fample of the deep prings of life. The world have been appeared by the courage over, timidity, of the deep prings of life. It is a fample of the courage over, timidity, of the coura

chanty, nonew, the monerty and human Unfollothedly no other poet has as sung his way into men's hearts as Burns because of his universal appeal.

Burns knew the human heart because the humanity. In his going he has left pictures in a few lines of such-heauly that they will always be the admiration but the human sendious in song. No other because and make others see the worth of a human soul as he did.

Burns saw into the future and as whomeously growing the world o'er.

for all mankind.

We often fancy we suffer from ingrati-tude while in reality we suffer from self-love. — Landor.

Burdens become light when cheerfully orne. — Ovid.

(B. Jan. 25, 1789)

#### THANKING PRIVATE SOL

Peter McLaren Forin, of Boffalo, N.T., a private in the Canadian (Activo) Army, conceived the idea of writing a series of "victory rhymes" and sending them to leaders of the Allied Nations' war effort. Here, is the poem Pte. Forin sent Field-Marshal Sir Archibald Wavell, Commander-In-Chief in India:

Some people see more with one eye
Than others do with two;
Some people manage better with the old
Than others with the new.

And here is the Field-Marshal's grac-lous response to Pte. Forin's tribute:

these are with the serowing spirit back to be head and turn the growing spirit back to be a sour as the serowing spirit back as your self-one, as old as your feat; as young as your head, so old as your feat; as young as your head, so old as your feat; as young as your head, so old as your feat; as young as your head, so old as your feat; as you you head, so do not head, so old as you feat, so do not head, so we have a self-order, and power from the earth, from men, and from the Infinite, so long are you young. When the wires are all down you will be a self-order to you young. When the wires are all down you will be a self-order to you young. When the wires are all down you will be a self-order to you will be a you will b

#### Life Insurance Plays Important Role In Life of a Nation At War Says President of Canada Life

#### To Our Policyholders

At our ninety-sixth Annual Meeting we were able to report another year of most satisfactory progress during 1942.

The report showed that the great stability of your Company which has been such a satisfaction to all policyholders was still further improved.

Once more great numbers have been thelped through distressing circumstances because of their co-operation with the many thousands of others who constitute this Company. At the same time the funds which have been accumulated on your behalf are being employed very largely in your country's war financing.

A complete annual report is available at

anada life Assurance Company

# and the Telephone

### t War has created

an unprecedented demand for telephones. At the same time, it has diverted large quantities of telephone materials and equipment to war purposes—both in our factories and our armed forces.

### The result is

that it is no longer possible to satisfy all civilian demand for new installations. Even when new telephones must be installed, the choice of instruments and services is limited.

### As a telephone user,

you can help to safeguard telephone service in the interests of Canada's war effort by carefully observing these wartime

### Picton and District

moted to the rank of agustron Two Are Killed

Commando Raid By Nazi Raiders Made Saturday

This advertisement is addressed for the Citication people who have been exhing the questions shown in As however we have an established position in industry and in Citizanship. We feel dary bound to place plain feels before the public because the prohibitionists are, as in the pest, using WAR as a means of fa-ther will on the posicion of Consolo, with shootley prohibition their industries good!

# Some Plain Talking About THE BEER SHORTAGE

### WHAT IS THE EXTENT OF THE SHORTAGE?

(Assurer) The available supply of beer under the new regulations is less than 70% of sodsy's demand with the expectation that the demand will become greater as time goes on:

### WHAT HAS CAUSED THE SHORTAGE?

(Assurr) The Dominion Cabinet by Order in Council has restricted the quentity of beer which may be sold between November 1, 1942 and October 31, 1943.

### WHY DID THE CABINET DO IT?

(Anney) is a believed the Cabinet did it without careful souly and principally to places the problebfoolist who, by means of a phwerful lobby, misrepresented conditions to the Prins Minister. In placining thus the class of people who, hys means of a phwerful lobby, misrepresented conditions to the Prins Minister. In placining thus the class of people who, he area, op, did everything they could not concern the proposed people with the principal state of the people hack home in the bilimeting heat of North African deserts, were sightling to preserve the liberties of the people back home as who in that exactor-mindedness have effectively blocked proposals to have our picture whereast opened one Sendays for the benefit of enlitted men on week-red laws, who also even apsend the false story that magat is used in the bevering of beer it of canada.

### WAS IT NECESSARY?

(Answer) Beer has long been regarded the people's drink in the free democratic countries of the weelds Canadian consumption has been low in relation to consumption in Great Britain and the United States.

Beer is brewed from Canadian ingredients which are in plentiful supply and not experient for the war effort: Canadian beer contains no sugar. Tes, coffee and sugar are transported to Canadia by sea and their curtailment has been made aggessary only by a shortage of ocean shipping.

### WHAT WILL BE THE CONSEQUENCES?

(Assurer) Many of the evils of the prohibition ers will return. Many of our soldiers, sailors, airmen and war workers are already being deprived of the nourishment and relaxation provided by a glass of beer

### WHAT IS THE REMEDY?

(desure) In a domency a government is the servant of its people. Governments are not infallible and from time to time, scring on but advice, make mistakes. Whereas they should be quick to correct such mistakes, respectives has shown that they are slow to do so unless the force of overvethining pablic opinion makes itself known. The remedy in this case, therefore, is in the heads of the people of Casade, who believe in tolerance and moderation, no table error poperatively prepared hearster against the Government's too drande retriction of the sail of beer. Otherwise a fasatical minority will be able to continue to imposi in wides upon a storeast minority.

In the last war (1914-1918) the British Government cut the production of beer but the indignation of the munition workers was so great that it had to be restored in order to maintain production;

over it. Emphisically NO! This Company's profes are not at sokis because in now heavily into the 100%, Excess Profes Tax category and any addition would only further ware one one plant without any compensation to make it. We are making the fact known because we incorrely believe that the price por of the Profession of the Interest of two managements.

# ME-ENTER A BEAUTY CONTEST?

CHEMISTRY HELPS TO WIN THE WAR

Their Colours
Come first!

BECAUSE we are in the fourth year of this war, some of the brilliant patchwork of peacetime colours may be missing from our lives, but was, for all its drabness, only tones down some of the colours used. Naturally enough, the service colours dominate the scene—Navy Blue, Airforce Blue, Army Khaki.

The dye chemist's first duty is to ensure that these service colours will stand up under all kinds of exposure and rough treatment. Gone, now, is the dependence of Canada (Defore the last war) on dye-stuffs of German origin. Today, these are fully replaced by dyes from Great Britain and the United States.

by dyes from Great Britain and the United States. For many years C-L's Organic Chemicals Division has served industries in Canada with their colonities needs—dyesuiff, pipments, etc.—for extraitle, Jenker, paper, pottery, plastics and other materials. C-L's service involves constant search to provide dyes that keep pace with changing processes of manufacture and the development of new materials and admixtures of old. In addition to formithing the cerviceable dyestuffs required for hard-wearing uniforms, C-L-L has assured a plentiful mphyl of colour-fast dependable dyestuffs to meet every civilian need.

# A FURTHER CUT IN CAR INSURANCE RATES

### Public Liability, Property Damage, and Collision Insurance on Private Passenger Automobiles Substantially Reduced in Cost, Effective January 1st, 1943

FOLLOWING their action of last April, when rates for public Hability and property damage insurance to automobile owners in the low gasoline rationing categories were substantially reduced, member companies of the undersigned bodies writing automobile insurance announce a further substantial reduction in rates, effective January

The reductions apply to public liability, property damage and collision instrunce rates.

This voluntary action by the companies is the result of a continuing study of conditions brought about by reduced gasoline rations and a consequent reduction in the milesge

It is part of the programme which provided for a periodical review of rates which was instituted by these companies as soon as reduced gasoline consumption

It will be apparent that these member companies have lost no time in implementing their announced policy of

keeping rates in line with warrine gasoline rationing reduced travel and a presumptive decline in the accident rate. While the latter, has not, in fact, declined as markedly as conditions might have led one to anticipate, nevertheless

Thus these member companies have decided to take into consideration in gaming the new preduced rates, a lessening of the general hazard of motor traffic which may be reasonably anticipated, although not yet actually achieved.

The progressively reduced rates for automobile arance, being based on conditions which are the result of war measures of a temporary nature, must be considered themselves a war measure and contingent upon a continuing

Owing to heavy reduction in staffs due to warring manpower shortsge and restricted transportation, it may be impossible for the member companies' agents to contact all their policyholders. Details of the new rates, effective January 1st, 1943, should be obtained from your insurance

 $T_{\rm RULY}$ , there's nothing like the wonderful new Pearl White Naptha Soap. Women everywhere are cheering this old favorite that now offers these extra values:

Fusier Sode. The way new Pearl acts when it comes into contact with water—even hard water—is simply marvelous. It gives rich, lasting suds. Real energy suds—made for work and lots of it!

Quickw Action. Yes! New Pearl works like magic. Its lively suds get after dirt and grime in a hurry—helps speed up washday.

Wenha Genev. Even the dirtiest kind of clothes—play suits, workshirts, overalls—come cleaner when Pearl is on the job. White clothes come white as mow . . . washable colors bright and cheery.

Freeler Odor. You'll love the fresh fragrance of new Posri. And you'll love the sweet, clean-smelling wash if gives, too.

New "Keep-freed" Wrapper. New Pearl comes in a laminated waxed wrapper that keeps the seap fresh! And the new Pearl costs no more! Get Pearl White Naptha Soap in time for this washday. Use it for dishes and all cleaming. It's so winderfully economical.

Canada no approach to a nanonwas power of social security.

The method of the income bax collection too has been meth discussed. At this time to has been method to the United States and the United States and favored in Canada. The government's proposal is therefore the further development of the payments. The state of the payment of prevent income in its year is subjected to the payment of the payment of prevent income in the year is subjected. Concludent the approach made last year to the collection of tasse on a coursel basis."

#### Hitler's Tenth Anniversary

Hitler's Tenta Anniversary
Adolf Hitler on the tenth anniversary
of his accession to power in Germany as
Chancellor must face the beginning of the
eleventh year with hitterness, disappointment and the sense of foreboding of his
own doom as well as the collapse of his
grandiose compiracy of anniverment of
mankind by the most crusl despotian.
Today no other name in history in the

MORE WISECRACKS AND WITTICISMS

"SAVE THE SURFACE . . ."

Lord Chestarfield was quite a mappy talker, too, even though Sam Johnson had no use for him and described him thus for posterity: "This man I thought a lord among wits, but I find him only a wit among lords." One of Chestarfield's hapamong lords." One of Chestorfield's hap-piest remarks was made as he admired a roup of fashlomble ladies at a large solves. The great Voltaire was present and asked Chesterfield: "All port, as you are a good index, tall us, which are the more beautiful, the English or the French with the Chestorfield of the Presch "I am sorry," answered Chestorfield urbanely, "but I am no judge of paint-ing."

#### SWITH SCORED

The wittiest of all clergymen would appear to be Sydney Smith, the delightful Briton, Smith once had an argument with a pompous squire whose arguments were neatly answered. The squire finally lost his temper and blurted out: "If I had a son who was an idiot, I'd make him a narron."

son who was an idiot, I'd make him a parson."

"I see that your father was of a different mind," Smith said gently.

Smith was not fund of dogs, and was a half was not fund of dogs, and was a minute for the fundamental sough.

The latter part of the fundamental sough.
The latter part of win on the literary horizon. W. S. Gilbert, a collaborator in the Gilbert and Sullivan operatus, was a widely quoted fellow—a veritable Wilson Wilson. W. S. Gilbert, a collaborator in the Gilbert and Sullivan operatus, was a widely quoted fellow—a veritable Wilson Wilson of the depths A quality woman, pretending to know sourchild woman, pretending to know sourchild woman, pretending to know sourchild wilson and add. "Oh, Mr. Sallivan's must is so delightful. It reminds me of dear Batch" (her promundation of "Batch"). Then abe continued: "What is Batch doing now! is a companied."

continued: "What is Batch doing now? Is he composing anything?"
"No," said Gilbert, "right now Batch is by way of decomposing."
At a rehearsal of "Pinafore," Gilbert directed an actor to "cross left and sit on that skylight pensively."
The actor followed directions, sat on the skylight and shattered it.
"That's expensively." Gilbert observed.

#### ON THE RUN

James Abbot McNelll Whistler was as famed for his wit as for his paintings, and he was a great painter, too. During the Boer War a despatch from a certain general announced that he had retreatly, without losing a man or a
